

I would just like to say thankyou on behalf of myself and my family for our fantastic swimming pool you installed.

I had looked around for a while at various swimming pool companies some far to overpriced some were just not helpful.

But when we came to your show ground we were happy with the customer service all our questions were answered, we didn't get the usual (oh that will cost you) even when I was not sure of the excavation area you went out of your way to inspect our back yard.

After placing our order and the plans you submitted were passed things just ran very smoothly and before long our pool had been installed.

All your staff and even the sub contractors that work for you were very polite, professional and conscientious and the price as you said includes everything did.

Our two girls have been in the pool already they must be mad this time of year.

Once again I would just like to thank you and your company for the commitment you put in to produce your excellent product the swimming pool.

All the best in the future

A handwritten signature in black ink, appearing to read 'David Farish', with a long horizontal line extending to the right.

To STATE wide pools  
& STAFF.

I would like to thank your team  
of workers & yourself PAHEY for the  
Excellent Job you did on our swimming  
pool installation. They were very professional  
and courteous and we received everything  
we were quoted in our contract. You even  
gave the children a floating ring & mattress  
I would not hesitate recommending  
your pools and service to my friends &  
family.

Yours Sincerely  
SANDY. Beth Gaston.

To whom it may concern,

This letter is in reference to the swimming pool development that was installed on my premises at .

After initiating a contract with statewide pools I was assured my pool would be installed 6-8 weeks after I signed the contract. Page assured me that the pool would meet Australian standards and would be installed properly without any mishaps or problems and after my pool was installed I found that this was the case. Page gave me his word that I would be treated right as a customer of his company and I found that both page and his staff were helpful and productive while working on my site.

Now Page has had the pool installed I found that it has been done to a high standard and is value for money. I would strongly recommend Page and his company to install a pool at my family and friends premises as I believe that it is the best value for money.

I now feel confident that if any problem was to occur regarding my pool and its accessories I can take it straight to Page and his staff and I will have my question answered and resolve promptly and correctly. I would like Page to use this letter as positive feedback from a confident customer and show any future clients how happy I am with Pages' pool.

Kindest Regards

James Brookes
